

# ALUMNI SURVEY

## (Engineering Programs)

Your Name (Optional) \_\_\_\_\_

Your Degree Program: \_\_\_\_\_ Year of Graduation \_\_\_\_\_

Name of Organization \_\_\_\_\_ Position in Organization \_\_\_\_\_

S No		Question	Very Satisfied	Satisfied	Dissatisfied	Very dissatisfied
			4	3	2	1
1.	Knowledge	How do you gauge your knowledge of Mathematics , Science, Humanities and Engineering				
2.		Do you possess good problem interpretation and solution development skills				
3.		Do you have the ability to collect and analyze relevant data				
4.		Are you able to correctly apply theory to practical scenarios				
5.		Do you have the ability to design processes and components				
6.		Do you have the ability to use modern computational and IT tools				
7.	Communication	Are your presentation skills good to handle your professional requirements				
8.		Are you confident to explain your ideas through oral communication				
9.		Do you possess the ability to write technical reports and communications				
10.	Leader ship / Teamwork / Management	How do you go along with your co-workers and team fellows				
11.		How do you find yourself prepared to cope with challenging situations				
12.		Can you manage available resources and time judiciously
