

INSTITUTIONAL PERFORMANCE EVALUATION 2023-2024

IPE 2023-2024 was not conducted due to the revised quality framework (UK Model) being introduced by HEC in December '23. The IPE standards have been revised from 11 to 16 standards. The addition of 05 new standards requires considerable time to incorporate in the institute's performance evaluation.

HEC had considered this vacuum of additional standards and did not advise to proceed with the IPE. HEI (Air University) is extensively developing the additional 07 standards in the ongoing academic and research operation. AU is expected to conduct RIPE in the academic year 2024-2025. The competent authority has approved the conduct of RIPE in 2025 as per HEC guidelines.
